**Single National Curriculum (SNC)**

**One system of education for all**

TMF has officially adopted the SNC in all schools for grades one to five. Special trainings were given to the teachers to help them understand how to deliver the curriculum. Overall the response has been positive by teachers and students.

## Message from Chairperson Dr. Samea K. Ahmad

السلام علیکم ورحمۃ اللہ وبرکاتہ

The Prophet (ﷺ) said: "Blessed is the wealth of the Muslim, from which he gives to the poor, the orphan and the wayfarer." (Sahih Muslim)

The overall literacy rate of Pakistan has been stagnant at 60% since 2014-15. Yet more worrisome is that the literacy rate is higher in urban areas (74%) than in rural areas (52%), which is why TMF focuses its efforts in these under served marginalized communities. Despite limited resources and various challenges, TMF has continued to deliver affordable quality education in these areas. Through donations from our supporters, and determination of our principals & teachers, we are making a difference in the communities we serve.

Student retention rate is up, more girls are continuing their education into secondary and overall quality is improving. TMF is actively providing computer technology and IT support to our schools to bridge the gap caused by the pandemic. Also, much needed attention has been paid to improving the infrastructure of many schools-breathing new life and bringing excitement to our students. Recognizing the need for Career counseling, training was also provided to a batch of our teachers. Little by little, TMF is forging ahead in line with our mission. But we need your continued support.

Together, we are stronger and closer to fulfilling our dream of building an educated Pakistan-a better Pakistan. Pakistan zindabad!
